HOME PAGE

Quote of the Company:

"**Technology is best when it brings people together**

Catchy phrases for the Company Motto:

From newbies to technical nerds

Come and join us for learning about electronics

Welcome to the land of electronics

Strive for iot technologies

 Software & Hardware electronics for all
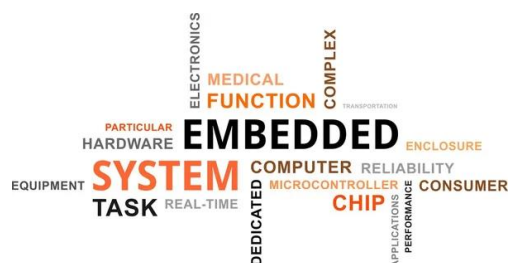

High-tech software and hardware development

Electronics for Technical Geeks

Are You ready to join the journey of Embedded Systems and IOT?

Come and Join our Company.

Elevator Pitch :

"We are a software company that manufactures electronics & optical products. we do this by creating and implementing Arduino programming code into the integrated circuits and electronics and optical products. We're the best at this because we have a team of experts who know how to leverage the latest digital and analog IOT technologies."

About Company & Team:

The company is Founded in Jan 2023. And is located on the outskirts of Warje in Pune Maharashtra. The company is about high-tech products such as electronics and hardware. and microcontrollers and IoT. We created the company to incorporate IOT with Arduino microcontrollers and to develop software products. We develop and manufacture computer electronics, optical products, and integrated circuits (digital, analog, and hybrid) using c ++programming language. In Arduino.

About The Founders of the Company:

About Director

Vijay Giridhar Dighe
Age - 57
Director and CEO of Victorium High tech LLP Pvt Ltd
Profile - C++ Software for Semiconductor Factory Automation, Automated Metrology Tools, Automation Hardware Interfacing, Sensor Interfacing, and On-Line Metrology tools.

About Manager

Diksha Vijay Dighe
Age -28
Daughter of the Director of the Company
Profile – Manager of company & Computer Hardware Network Software Engineer

Employees:

Nehali Bhalerao
Pradhyumn Bhavsar

Mission & Vision & Testimonials Page
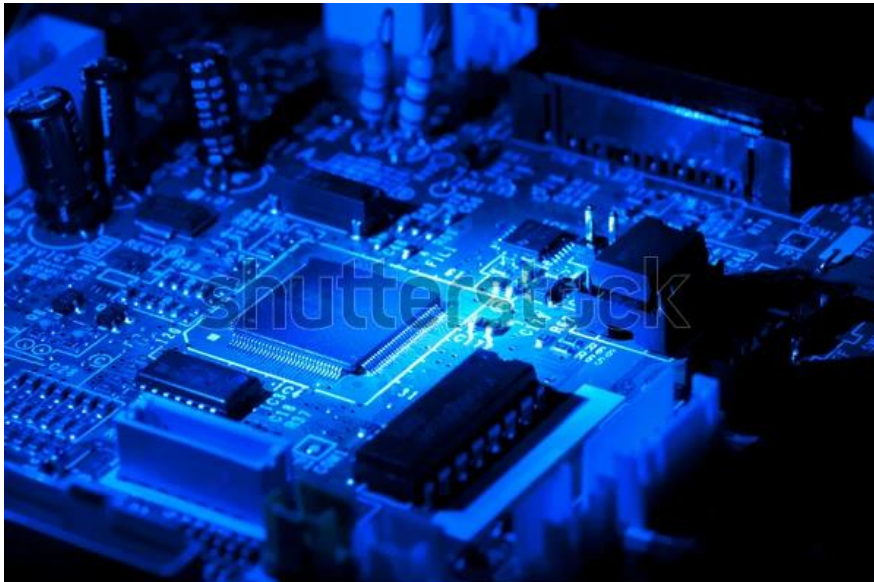

Our Mission statements:

- to develop the skills needed for manufacturing integrated circuits through Arduino and computer software
- to build , empower, and enhance electronics, software, and hardware using a creative genius mind.
- To develop a more integrated environment for technical geeks in Arduino

Vision:

- To help individuals with learning about integrated circuits and how to manufacture them. And
- To create a great work experience for clients in Arduino
and microcontrollers.

- To make iot technology combined with Arduino microcontrollers and integrated circuits extraordinary.

Testimonials:

Products & Services Page:

Products We Develop:

Integrated Arduino circuit board with embedded python code and Optical products.

Services We Offer:

Integrating circuits with Arduino

Software and hardware development

Computer programming in C++ language

At present today we are delivering a startling amount of software solutions to a diverse range of industries, we're proud to make a strong difference for the customers we serve. Here are some industries we commonly build innovative solutions for.

Solutions:

Business:

IoT

Software

Hardware

Arduino c ++

Consumer

gaming

Production of integrated circuits

Industry

IoT technology

Education

Information technology

- Custom Software Development.
- Web Application Development.
- Mobile Application Development.
- Cloud Consulting.
- DevOps Automation.
- Software Prototyping.

Quality Assurance.
Systems Integration.
Embedded system Arduino integrated circuits development

Careers Page:

Work with us:

Campus Selection

To join our company we need aspiring bright graduates and postgraduates We believe in recognizing and nurturing talents from various diversities of India. We have been hiring the best minds to match our existing objectives & growth.

Benefits of Joining:

Work from home and office

Maternity leave

Awards and recognition

Celebrations

Training

People of Victorium High Tech Company

Our people

Our Strengths

Life At Victorium High Tech:

Victorium speaks:

Positive environment

Adaptive

Great to work with

Training In:

Arduino programming

full stack development

embedded system
